Pillars in stone and Columns in stone

Pair of small-size stone pillars with capitals decorated with a ball

These 2 small-size gate pillars are hand-carved in Provence in a natural French limestone. Square in shape and small in size, each pillar features a massive chamfered base, 3 cubic stone elements forming the shaft and a molded capital topped by a small stone ball resting on a base. A beautiful hand-crafted creation by Atelier Alain BIDAL. The pillars are not cored.
