# Fireplace with trumeau in natural limestone from Provence : Séville

This fireplace with trumeau is carved by hand in the natural stone of Estaillades (a limestone of Provence). Hand-crafted in Provence, it is presented here in a weathered version to give it a more rustic and authentic look. This mantelpiece features a pair of straight jambs engraved with rectangular patterns, a thick and molded lintel, a wide shelf (ideal for decorative items), a rather sober trumeau decorated with a hand-carved frame and a finely molded cornice.
