

Provençal fireplace with trumeau and base carved in French limestone

This large Provençal fireplace is a beautiful fireplace crafted in our stone cutting workshop by our master stonemason into the stone of Estailades (French natural limestone). It is inspired by the fireplaces once found in the traditional houses in Provence: shapely jambs, sober lintel on which rests a molded shelf, geometric trumeau in paired stones and molded cornice. This fireplace rests on a thick stone base.
