

Provencal fireplace with trumeau and base carved in French limestone

This large Provencal fireplace is a beautiful fireplace crafted in our atelier by our master stonemason. Carved in the stone of Estailades (French natural limestone), this timeless fireplace is inspired by the fireplaces once found in the traditional farmhouses in Provence. It features shapely jambs, a sober lintel on which rests a molded shelf, a geometric trumeau in paired stones and a large overhanging molded cornice. This fireplace rests on a thick surrounding base.
