Mantels with trumeau in stone

Mantelpiece with trumeau in French limestone - Louis XIV style

This elegant fireplace with over-mantel and U-shape surrounding base is carved in a natural limestone from Provence, the Estaillades stone. Hand-crafted in Provence, this stone mantelpiece is inspired by the classic Louis XIV French mantels. It features a wide and finely molded cornice, a trumeau showing an embossed breastplate, a lintel with hand sculpted designs and a pair of straight jambs.
