Antique-style fireplaces in stone

Beautiful French Regency fireplace in natural limestone

Hand-crafted in Provence, this large fireplace in stone is inspired by the classic French Regency mantelpieces. It is carved in the limestone of Provence, the Estaillades stone. This stone mantel features a pair of shapely jambs, a monolith lintel decorated with a fine hand-sculpted shell in the center, and a finely molded tablet. A wide and thick molding surrounds the entire hearth opening.
