Antique-style fireplaces in stone

Small-size Regency style mantel in weathered natural limestone with base

This elegant mantelpiece hand-crafted in Estaillades stone (a limestone from Provence) shows a beautiful patina. Hand-carved in Provence, this fireplace is inspired by the classic French Regency mantels and features curved jambs adorned with various sculptures, a lintel sculpted with a superb shell in its center (symbol of the Regency and Louis XV styles). This fireplace is sold with its U-shape surrounding base.
