This large and tall basin is a hand-crafted water feature in carved natural French limestone: the Avy stone (frost-resistant). The rather tall square basin features wide and thick molded copings seating on imposing concave basement stones. The high octagonal central column is shaped like an obelisk and bears a charming Gothic style. It is very finely hand-sculpted with moldings and is fitted with 4 wrought iron water outlets.

Height 330 cm

Width 337 cm

Depth 320 cm

- Width of the copings: 50cm - Height of the basin:

70cm - Base of the column: 55 x 55cm

Price

uxAnci14950 €
