

Beautiful stone wall fountain with fluted bowl and finely sculpted pediment

This tall wall fountain is hand-carved in limestone (Estailades or Avy stone) in our stone cutting atelier in Provence. It features a protruding massive bowl sculpted with gadroons resting on a solid jamb, a finely sculpted pediment decorated with various sculptures and a nicely molded overhanging cornice. The water comes out from the mouth of the hand-sculpted in stone Bacchus' head.

Height 230 cm
Width 130 cm
Depth 80 cm
