

## Large central fountain with an obelisk column carved in stone

This large central fountain hand-carved in Avy stone (a frost resistant limestone) is a beautiful garden fountain of 3 meters in diameter. It features a tall 6-sides central column carved in the form of an obelisk. It is topped by a small stone ball and is fitted with 3 water outlets in forged wrought iron. The large octagonal basin is made of 8 massive molded stones. It rests on a thick octagonal surrounding base.
