This wall fountain in carved limestone could be installed, thanks to its shape, in a corner. Hand-carved in Provence in a natural French-extracted stone (either the Estaillades or the Avy stone), this fountain features a massive basin resting on a molded base, finely molded flat copings, and a narrow rounded pediment fitted with a wrought iron water spout. It is topped by a molded capital.

Height 145 cm

Width 175 cm

Depth 75 cm

- Basin's height: 70 cm
