Large basin in natural stone with finely carved pediment and head of Bacchus

This rather imposing garden fountain is a large wall fountain hand-carved in the Avy stone (a frost resistant limestone) in our stone cutting atelier in Provence. It features a large pediment decorated with various sculptures (scrolls, Romanesque columns, Bacchus head as a water spout...) and long basin with molded stone fitted with wide copings. Customizing possible. -- PRICES ON REQUEST --

Height	150 cm
Width	345 cm
