Large carved limestone wall fountain with 2 iron spouts

This hand-crafted in Provence artisanal water feature is hand-carved in natural limestone extracted from French quarries (the Estaillades stone or the Avy stone). This large wall fountain features a rectangular basin topped by molded copings and a large pediment fitted with two water outlets in wrought iron. Scrolls are hand-sculpted in stone on each side of the pediment and a cornice finely hand-carved with moldings tops the pediment.
