Central octagonal fountain with basin and column crafted in natural French limestone

This superb hand-crafted water feature in stone is manufactured in Provence by our artisan master stone-cutters. This central fountain, a traditional Provence fountain, features an octagonal basin with wide molded copings and an octagonal central column fitted with 4 metallic water spouts. The molded capital is nicely topped by a ball in stone. Sold with 4 pairs of metallic bucket rest-bars.

Height	165 cm
Width	160 cm
Depth	160 cm
