Limestone fountains and basins

Central fountains in stone

Limestone garden fountain with large sculpted basin and octagonal column

This rather imposing central fountain, a rustically charming garden fountain, has been hand-carved in the Estaillades stone in our stone cutting atelier in Provence. This sturdy water fountain features a large and tall monolithic octagonal basin and a central octagonal column fitted with 4 wrought iron water outlets. Beautiful natural patina of time.

Height	160 cm
Diameter	140 cm

- Basin's height : 65 cm

Price
7970 €
