

Limestone garden fountain with large sculpted basin and octagonal column

This rather imposing central fountain, a rustically charming garden fountain, has been hand-carved in the Estailades stone in our stone cutting atelier in Provence. This sturdy water fountain features a large and tall monolithic octagonal basin and a central octagonal column fitted with 4 wrought iron water outlets. Beautiful natural patina of time.

Height 160 cm

Diameter 140 cm

- Basin's height : 65 cm

Price

7730 €
