This large central fountain hand-carved in natural limestone is a hand-crafted oval fountain reminiscent of the old Provence villages wash-houses. It features a rather tall and large oval basin fitted with thick concave copings carved like those of the ancient wash-houses. The central square column is fitted with 2 water outlets and topped by a large overhanging flat capital.

Height 185 cm

Width 310 cm

Depth 200 cm

- Basin's height: 75 cm
