# Limestone fountains and basins

## Central fountains in stone

# Exceptional 3 tier central fountain in Avy stone

This elegant central fountain is hand-crafted in Provence from Avy stone (a hard and frost-resistant limestone). It features a 180cm circular basin composed of eight molded stones (15cm wide × 35cm high). The entire piece is enhanced by a magnificent 165cm high central column fitted with 3 superb, finely hand-sculpted overflowing bowls, creating a striking three-tier outdoor fountain.
