

Garden wall fountain in weathered Provence limestone : Marquise GM

This charming decorative garden fountain is a wall fountain carved in Estailades stone (a natural limestone extracted from our quarries in Provence). This water feature is hand-crafted in Provence by our master stone cutters. It features a rectangular molded basin and a pediment decorated with a molded cornice cut in the shape of a gendarme's hat and a beautiful hand-sculpted rosette that highlights the wrought iron water spout. Beautiful natural patina.
