Small wall fountains in stone

Small garden wall fountain in natural stone : Marquise

This rather small decorative garden fountain is carved in the Avy stone, a natural firm limestone that is frost resistant. It is hand-crafted and finely sculpted by our stone-cutters in our atelier in Provence. This 100% Made in France wall fountain features a rounded pediment with a nice hand-sculpted rosette in its center. The rectangular basin made of large dressed stones is quite shallow and topped by large molded copings. Ideal for small spaces. Sold with a wrought-iron water outlet.
